

STATINTL

Tuesday, October 15 1974

The WAP agreed to send a memorandum to the Director recommending that he and the Deputy Directors appear in the auditorium to respond to the questions we received on our questionnaire.

The WAP recommendations for improvement in the status of women will include:

- A female to recruit professional females.

- Increase the number of female professional applicants by 15%

- Offices set goals for moving females into higher graded supervisory positions.

The Advanced Staffing Plans should include specific requirements for improving the status of women.
